TERMS & CONDITIONS

Floor Models: Floor Models & Demos have full factory warranty, but may have some cosmetic imperfections not covered by warranty.
Purchase & Sale: Purchaser agrees to buy and seller agrees to sell goods herein on the terms and conditions set forth. Product subject to modifications and color changes per the manufacturer.
Payment: Payment is due in full prior to delivery. All sales are final. No refunds. If purchasing a Special Order spa a 50% non-refundable deposit is due immediately.
Deposits: Customer has three (3) calendar days from date of purchase to cancel. Deposits are not refundable unless otherwise noted.
Refunds: Any refunds on payments/deposits will be charged a 15% fee of total contract price.
Delivery: Buyer accepts responsibility to provide a clear, unobstructed and reasonably level path to spa site. All pathways, gates, doorways, eaves, overhangs, tree branches, etc. need to be measured for clearance prior to delivery. Allow an extra 8" in height to all measurements for spa dolly. Any crane fees or extra labor to clear obstacles or make access will be the responsibility of the buyer. There will be a \$125 re-delivery charge plus long distance mileage if buyer does not accept the delivery. See additional delivery instructions contained in this contract.
Installation: Seller is not responsible for any installation work such as electrical hookup or site preparation on goods sold in this contract.
Permits: Buyer will be responsible for obtaining all necessary permits and permissions for any item purchased in this contract.
Electrical Requirements: A 110v, 15amp dedicated line is necessary to run spa off 15' cord. If converting to 220v, a 50amp, 4 wire electrical hookup is required. Tuff Spas is not licensed or bonded to wire 220v electrical. It is up to the discretion of the delivery company whether or not they will hook up the spa to the existing electrical if the hookup is available. X _____
Surface & Pad: Spa should be placed on flat hard surface, preferably concrete, wood, properly installed paver blocks, or 2" thick Styrofoam sheets.
Delivery Requirements: We will send a 2 man delivery crew with all terrain dollies. We will need a clear path to roll your spa into your yard. All trees, brush and obstacles need to be trimmed or removed prior to delivery. We need a gate that is at least as wide as your spa is tall. Most spas fit through a 36" opening but the larger ones may require a 40" opening. We will need overhead clearance of 8" taller than the width of your spa. This is to accommodate our dolly. Walk the path the spa will travel and measure all gates and overhead clearances. Our normal delivery will not include making access. IT WILL BE THE CUSTOMER'S RESPONSIBILITY TO PROVIDE US WITH PROPER ACCESS TO GET THE SPA IN THE YARD. IF WE HAVE TO MAKE ACCESS OR A SECOND TRIP IS NEEDED, THERE WILL BE AN ADDITIONAL CHARGE. IF A CRANE IS NEEDED THE FEES WILL BE THE CUSTOMER'S RESPONSIBILITY. The delivery crew will do an orientation on proper operational procedures of your spa. Please read owner's manual and operation guide. We recommend using Sodium-dichlor. Always keep cover on the spa with straps securely in place.
 OTN: Owner to notify for delivery with 4 weeks notice. Price lock for 6 months. X _____
